Memo

To: City Council
From: James E. Martin, PWD
CC: Mayor Warren
Date: April 29, 2015
Re: 13th St. Overlay Project

Upon completion of the grinding on 13th Street some unforeseen conditions exist that need to be addressed that will increase our required match for the funding on the project. It has been discovered that there are a few areas where the existing roadway thickness was nowhere near what was expected. The existing condition was also hidden by previous chip seals that have occurred over the years. There is quite a bit of transverse cracking in the roadway surface that could eventually reoccur in the new surface.

We are proposing some additional pre-level patching in some areas where the roadway base course was exposed and thicken the new asphalt mat thickness from 2 tenths of a foot to 3 inches at the crown of the road. We have been reassured by the State that the funding will be supplied but we must match that expense with 13 ½% of the total.

Thank you for your consideration.

Jim
