Re: Meeting

Hi all. We have some things to discuss and need to have a meeting. I'm proposing this coming Monday night. We can have an update and discussion on "502", and I'd like to update our zoning matrix. We have a number of building uses that are missing from the matrix and in some cases the matrix does not accurately or correctly identify where some uses can or cannot locate.

As part of the process, I would appreciate your review of the matrix, note what uses might be missing that are out in the real world and review the body of the zoning code where each use is described so we can strive for accuracy.

Thanks,

Jim
